SANTHIYA MAHADEVAN

M. Tech (Network and Information Security) | B.Tech. (Computer Science and Engineering)

Santhiya0812@hotmail.com | +91 7558181556|

PROFESSIONAL SUMMARY

Cybersecurity enthusiast with practical experience in threat detection, incident investigation, and digital forensic analysis gained through hands-on labs and real-world simulation platforms. Experienced in investigating malicious activity, analyzing system and browser artifacts, and correlating security events to identify attack timelines. Completed multiple investigative scenarios on Blue Team Labs Online and actively strengthening defensive security capabilities through TryHackMe. Possesses strong analytical, problem-solving, and research skills with a focus on SOC operations, threat analysis, and security monitoring.

EDUCATION

Masters in Network and Information Security — Pondicherry University *2024 – 2026*

NCSC/GCHQ-accredited | Modules: Cryptography, Network Security, Cyber Security, Cyber Forensics, Software Security, Penetration testing, Security management, Incident Response

Bachelor of Technology in Computer Science & Engineering –Manakula Vinayagar Institute of Technology *2020 – 2024*

Modules: Data Structures, Linus & Programming in C++, Control Systems, Smart Grid Technology, Digital signal Processing, Power System Analysis, C Programming, Microprocessors & Microcontrollers

TECHNICAL SKILLS

Monitoring & Incident Handling	Log analysis, alert triage, incident documentation.
Scripting for troubleshooting	Python, Bash (Automating repetitive tasks)
Languages	C++, Python, Bash, PowerShell
Networking Fundamentals	TCP/IP, DNS, DHCP, routing & switch basics.
System Admin	Basic Windows & Linux troubleshooting, Active Directory basics.

KEY SKILLS

Network Security, Cryptography, Cybersecurity, Cyber Forensics, SAST\DAST, Ethical Hacking, Incident Response, Security Protocols, Risk Management, Secure Coding, Threat Analysis, IoT Security, Wireless, Communication, Risk Mitigation, Secure Data Transmission, MS Office, HTML, GSM Technology

WORKSHOPS

Next-Generation Cybersecurity for Systems,Software,and Applications

ACADEMIC PROJECTS

Convolution Netural Network of Gastrointestinal Cancer | 2024

- Developed a CNN-based deep learning model for gastrointestinal cancer detection, enhancing diagnostic accuracy.
- Improved interpretability and transparency of AI decision, enabling medical professionals to trust and utilize AI-driven diagnoses.

Cybersecurity Detection & Monitoring Lab | 2023

- Built a lab environment to practice system monitoring and troubleshooting.
- Configured firewall rules and monitored logs to identify connectivity and authentication issues.
- Developed structured troubleshooting workflows to improve issue resolution efficiency.

VOLUNTEER EXPERIENCE

- Lions Club of Pondicherry | Active Member 2020 – Present
- Starfort Cybersecurity Awareness Program - Volunteer | 2024

LANGUAGES

French A2 Proficiency
English
